

FOREIGN BROADCAST INFORMATION SERVICE

P. O. Box 2604
Washington, D. C. 20013

21 June 1971

President Nixon, the heads of several U.S. Government departments and agencies, the directors of cooperating monitoring services, and others sent us congratulatory messages on the occasion of our recent 30th anniversary.

In order to share these thoughtful expressions of confidence with our people in Headquarters and in the field, we have reproduced photographic copies and are herewith supplying sets for use in briefings and for display purposes.

Copies of the special anniversary issuance, "FBIS In Retrospect," will reach you separately in sufficient number for all employees as well as for whatever additional dissemination you wish to make.

Director
